

HAMILTON COLLEGE

Project Information

Address: Bothwell Road, Hamilton, Lanarkshire ML3 0AY

Facility: 100.0m x 55.0m synthetic turf pitch + recesses

Pitch System: VHAF NottsSward sand filled synthetic grass

NottsPad XC shockpad

Specialist Unbound (Dynamic) stone base

Underlying piped drainage system

Other Features: Permanent & semi permanent pitch markings and playing lines

Rigid panel fencing with extensions to 5m high at main goal ends.

Free-standing sports equipment + 8no. storage recesses

Access Paths

Athletics provision via both a sprint extension and a new IAAF compliant double width jump pit

Built: February 2013

Points of Interest: The pitch replaced an existing redgra/shale pitch which was used minimally throughout the year due to its age and performance in inclement weather.

The pitch is located within the centre of the Hamilton Park Racecourse and the design was tailored to ensure that there was minimal impact on the racecourse and vistas for spectators and cameras.

This replacement pitch was designed to meet the high quality hockey the College wished to offer whilst offering performance and durability for football and other sports.

Sports: Hockey; Football; Tennis; Rugby Training; Athletics and training

Testimonial: "We were extremely impressed with the professionalism and service we received from the original feasibility report through to undertaking a full planning consultancy and ultimately the entire project management of the new pitch construction."

Iris Eynon, Business Manager
