

Penzance Hockey Club Penzance, Cornwall

Project Information

Address: Penzance Hockey Club, St. Clare Street,
Penzance, Cornwall, TR18 3DX

Facility: 102.00m x 63.00m Synthetic Turf Pitch

Sports: High level club hockey

Pitch System: New 20mm sand dressed high quality monofilament,
tufted synthetic turf
New insitu rubber shockpad (performance control layer)

Onto existing: Underlying macadam engineered (bound) pitch base

Construction Cost: £186,785

Completed: March 2014

Specialist Contractor: Charles Lawrence Surfaces Ltd

Points of Interest:

- The original pitch was constructed in 2000, following a series of performance testing it was clear that the surface had reached the end of its lifecycle after 13 years of use.
- Notts Sport worked with the Club for several months to aid in securing the necessary funding to replace the pitch surface from the existing EH category 3 sand filled surface to an upgraded EH category 2 sand dressed surface.
- During the construction process and following on site key stage inspection carried out by Notts Sport it was also deemed necessary to replace the performance shockpad layer too.
